

OUT OF TOWN MEASUREMENT FORM

Solutions Bridal recommends that all measurements be taken by a professional. Bring this form to record your measurements, then contact the appropriate Solutions Bridal location below. One of our stylists will suggest a size based on the measurements you are providing. However, the size chosen is your decision and neither Solutions Bridal or the designer are held responsible for your final selected size. **Alterations will be necessary on every gown.**

PLEASE READ THE FOLLOWING FOR ACCURACY:

1. The bust measurement is taken at the fullest area of the bust. Wear an undergarment similar to what will be worn with the dress.
2. The waist measurement is taken at the smallest part of the torso. This measurement should be taken without any clothing over your torso.
3. The hip measurement is taken at the widest part of your bottom. Legs should be hip width apart. Wear an undergarment similar to what will be worn under the dress.
